

Knowledge organiser – World trade

What will we be learning?

- Why people trade with each other
- What imports and exports are
- How a global supply chain works

Key facts

Different places make different things and sell them to each other

The parts for products like smartphones travel huge distances to the factories where they are put together

Many goods reach us after a long journey on a container ship

Key knowledge

The goods we buy come from all over the world

There are many steps in a global supply chain before the goods get to us

Transporting goods to and from the factory involves huge distances and needs careful planning

Place names	Geographical terms and processes	Locational terms
Caribbean China Germany Japan Port of Santos South Korea Taiwan Netherlands Ukraine UK USA Zhengzhou	agriculture container economy environment export Fairtrade import industrial manufactured raw materials services supply chain transport	map key scale trade route

Glossary
