

What should I already know?

Similarities and differences between common, every-day objects (EYFS)  
Plants can grow in soil and may be able to recognise a leaf and a flower.

What will I know by the end of the unit?

The names of some common garden plants

People may grow plants in their gardens and care for them.

vegetable patch

rose

poppy

sunflower

The names of some common wild plants

A wild plant will grow by itself. It does not need to be cared for. If it grows somewhere unwanted, it may be called a weed.

dandelion

daisy

buttercup

nettle

clover

Deciduous and evergreen trees

**Deciduous trees** lose their leaves in the autumn every year. Their leaves are generally broad, flat and have veins running through them.  
**Evergreen trees** have green leaves all year round. Their leaves are generally thick, wax and narrow like needles.

What are the parts of common trees and plants?

Vocabulary

branches	parts that grow out from the <b>tree trunk</b> and have <b>leaves, flowers, or fruit</b> growing on them
bulb	a root shaped like an onion that grows into a <b>flower</b> or <b>plant</b>
common	something that is found in large numbers or it happens often
